

# The "Red Flag"

## Early Intervention Referral Guide for children 0 – 5 years

### How to use this resource:

This resource is a tool to help you to determine whether a child may have developmental delays. It will allow you to refer early before the child begins to struggle to achieve tasks usually managed by children of the same age.

**Step 1** - Find the child's age across the top of the table below.

**Step 2** - Read through the list and identify if the child is demonstrating any of the Red Flags at their age level.

**Step 3** - If the child is between age levels (e.g. 2 yrs 5 months) check the lower age level for Red Flags (ie. 2 yrs)

### When to be concerned?

One or more Red Flags (in any area) is a sign of delayed development.

#### Who to go to?

##### Parents:

If you have concerns about your child's development, please contact your Family Doctor or Child Health Nurse (1300 366 039).

##### Health Professionals:

If you have screened and identified any Red Flags, please contact your local Child Development Service.

### Who helps with these Red Flags?

Children aged 0 – 5 years who have a developmental concern, may benefit from the services from any of the following:

- Paediatrician
- Speech Pathologist
- Occupational Therapist
- Physiotherapist
- Social Worker
- Psychologist.

### Local Child Development Service

Child Development Program

Ph: 3335 8888 Fax: 3335 8869

**Please note:** Waiting times apply and can be indicated at Intake.

**Parents** - It is advisable to call your Doctor or Child Health Nurse before calling this number.
