

# PARENT UPDATE

September 2018

**Resubmission of attendance data** We have been advised via our third-party software that there are a number of attendances requiring resubmission. No data is being altered. Once this has been adjusted by us we will request all educators to re-issue a full invoice displaying all periods from 2/7/18 in order to outline any possible change to your balance. You may see that the value of CCS is proportioned slightly differently and the result being a change to your invoice.

**Vacation Care, School age children** Please contact your educator to enquire if you need a vacation care booking for your school age child. Under the new Child Care Package there is a requirement that we have a Complying Written Arrangement for the upcoming school holiday vacation care bookings. Please ensure that you have then confirmed the enrolment notice within your MyGov to ensure your CCS is paid on your behalf towards your child care fees.

**When finishing care** Please ensure you have adhered to your notice period when terminating care with your educator. It is a government requirement that you physically attend care on your last day to receive CCS. If your child does not physically attend care on the last day of care or any consecutive absence days your educator will invoice you for the full cost of care.

**Get it off your chest! Asking for Help can make a big difference** Educators are often the first professionals to notice when a parent is struggling to cope. Research on behalf of the Queensland Family and Child Commission (QFCC) has shown that parents often avoid talking about their problems for fear of judgement. That's why QFCC have created 'Talking Families' website where parents can receive support and voice their frustrations within a like-minded community.
